Recovery, Restoration and Peace-of-Mind

ElderIDPro Bonus Value for Credit Unions with IDProSelect Contracts*

Vero provides the ElderIDPro bonus value for credit unions that have signed an IDProSelect agreement. Credit unions that implement Vero's IDProSelect and have a minimum of 80% of members' checking accounts embedded after rollout & beyond will receive ElderIDPro at no cost for all members. Credit unions that have less than 80% of members' checking accounts embedded with IDProSelect will be offered a significant discount on ElderIDPro. This special promotion provides members without checking accounts and who are 60 years and older, free Fully Managed Recovery (FMR) services directly through Vero, to ensure the best support is available for ALL the elders at the credit union.

- Vero recommends that any active checking account members who are 60 years or older will be paid for by the credit union at the standard rates (according to the pricing matrix of accounts covered). These Elder member checking accounts can be calculated and considered when determining the dollar amount of the account maintenance fee implemented for the total program.
- Credit unions that receive free ElderIDPro will be required to provide Vero with a monthly report of the number of Elders who do not having checking accounts with the credit union. Vero will be financially responsible for paying for the ElderIDPro service for these members.

"We give elders a true safe haven of support when it appears identity theft or fraud is threatening their security and they don't know who to trust." - Joe Annoreno, CEO at Vero
